

# INTERIOR & EXTERIOR options

There are seven option groups: To determine your requirements match the internal width section size from the Wardrobe to the last two numbers in the model code of the item required.  
 Example – Shelf for 48cm Section = 92051/48 Hanging Rail for 72cm Section = 92972/72. Drawers for 77cm Section – 91008/77

## Option Group 1 All Wardrobe Types

Hanging Rails													Shelves													Angled Unit Shelf
Where double hanging is required, retain one Shelf in the middle of the Robe Section to maintain carcass strength.																										
28													77													
38													81													
48													87

| 5. <b>91086</b> Telescopic Arm     | 10. <b>91001/97</b> Interior Drawers |  |   |

**Notes:** 1. All Shelving fitments must stand on the Wardrobe Base. They cannot be put on top of Interior Drawer or Basket Units. 2. Interior Drawers, Baskets and Shoe Racks cannot be placed in the outer sections of Step Front Wardrobes as there is insufficient depth. 3. As shown in pictures above, all Drawer and Basket Units are inset to allow opening. 4. The Swing Down Rail should only be used in 242cm high Hinged Door Robes and Panorama Robe Sections.
